NATARAJ SURFER F0.7 INDIA

NATARAJ GOLD HB / No. 2

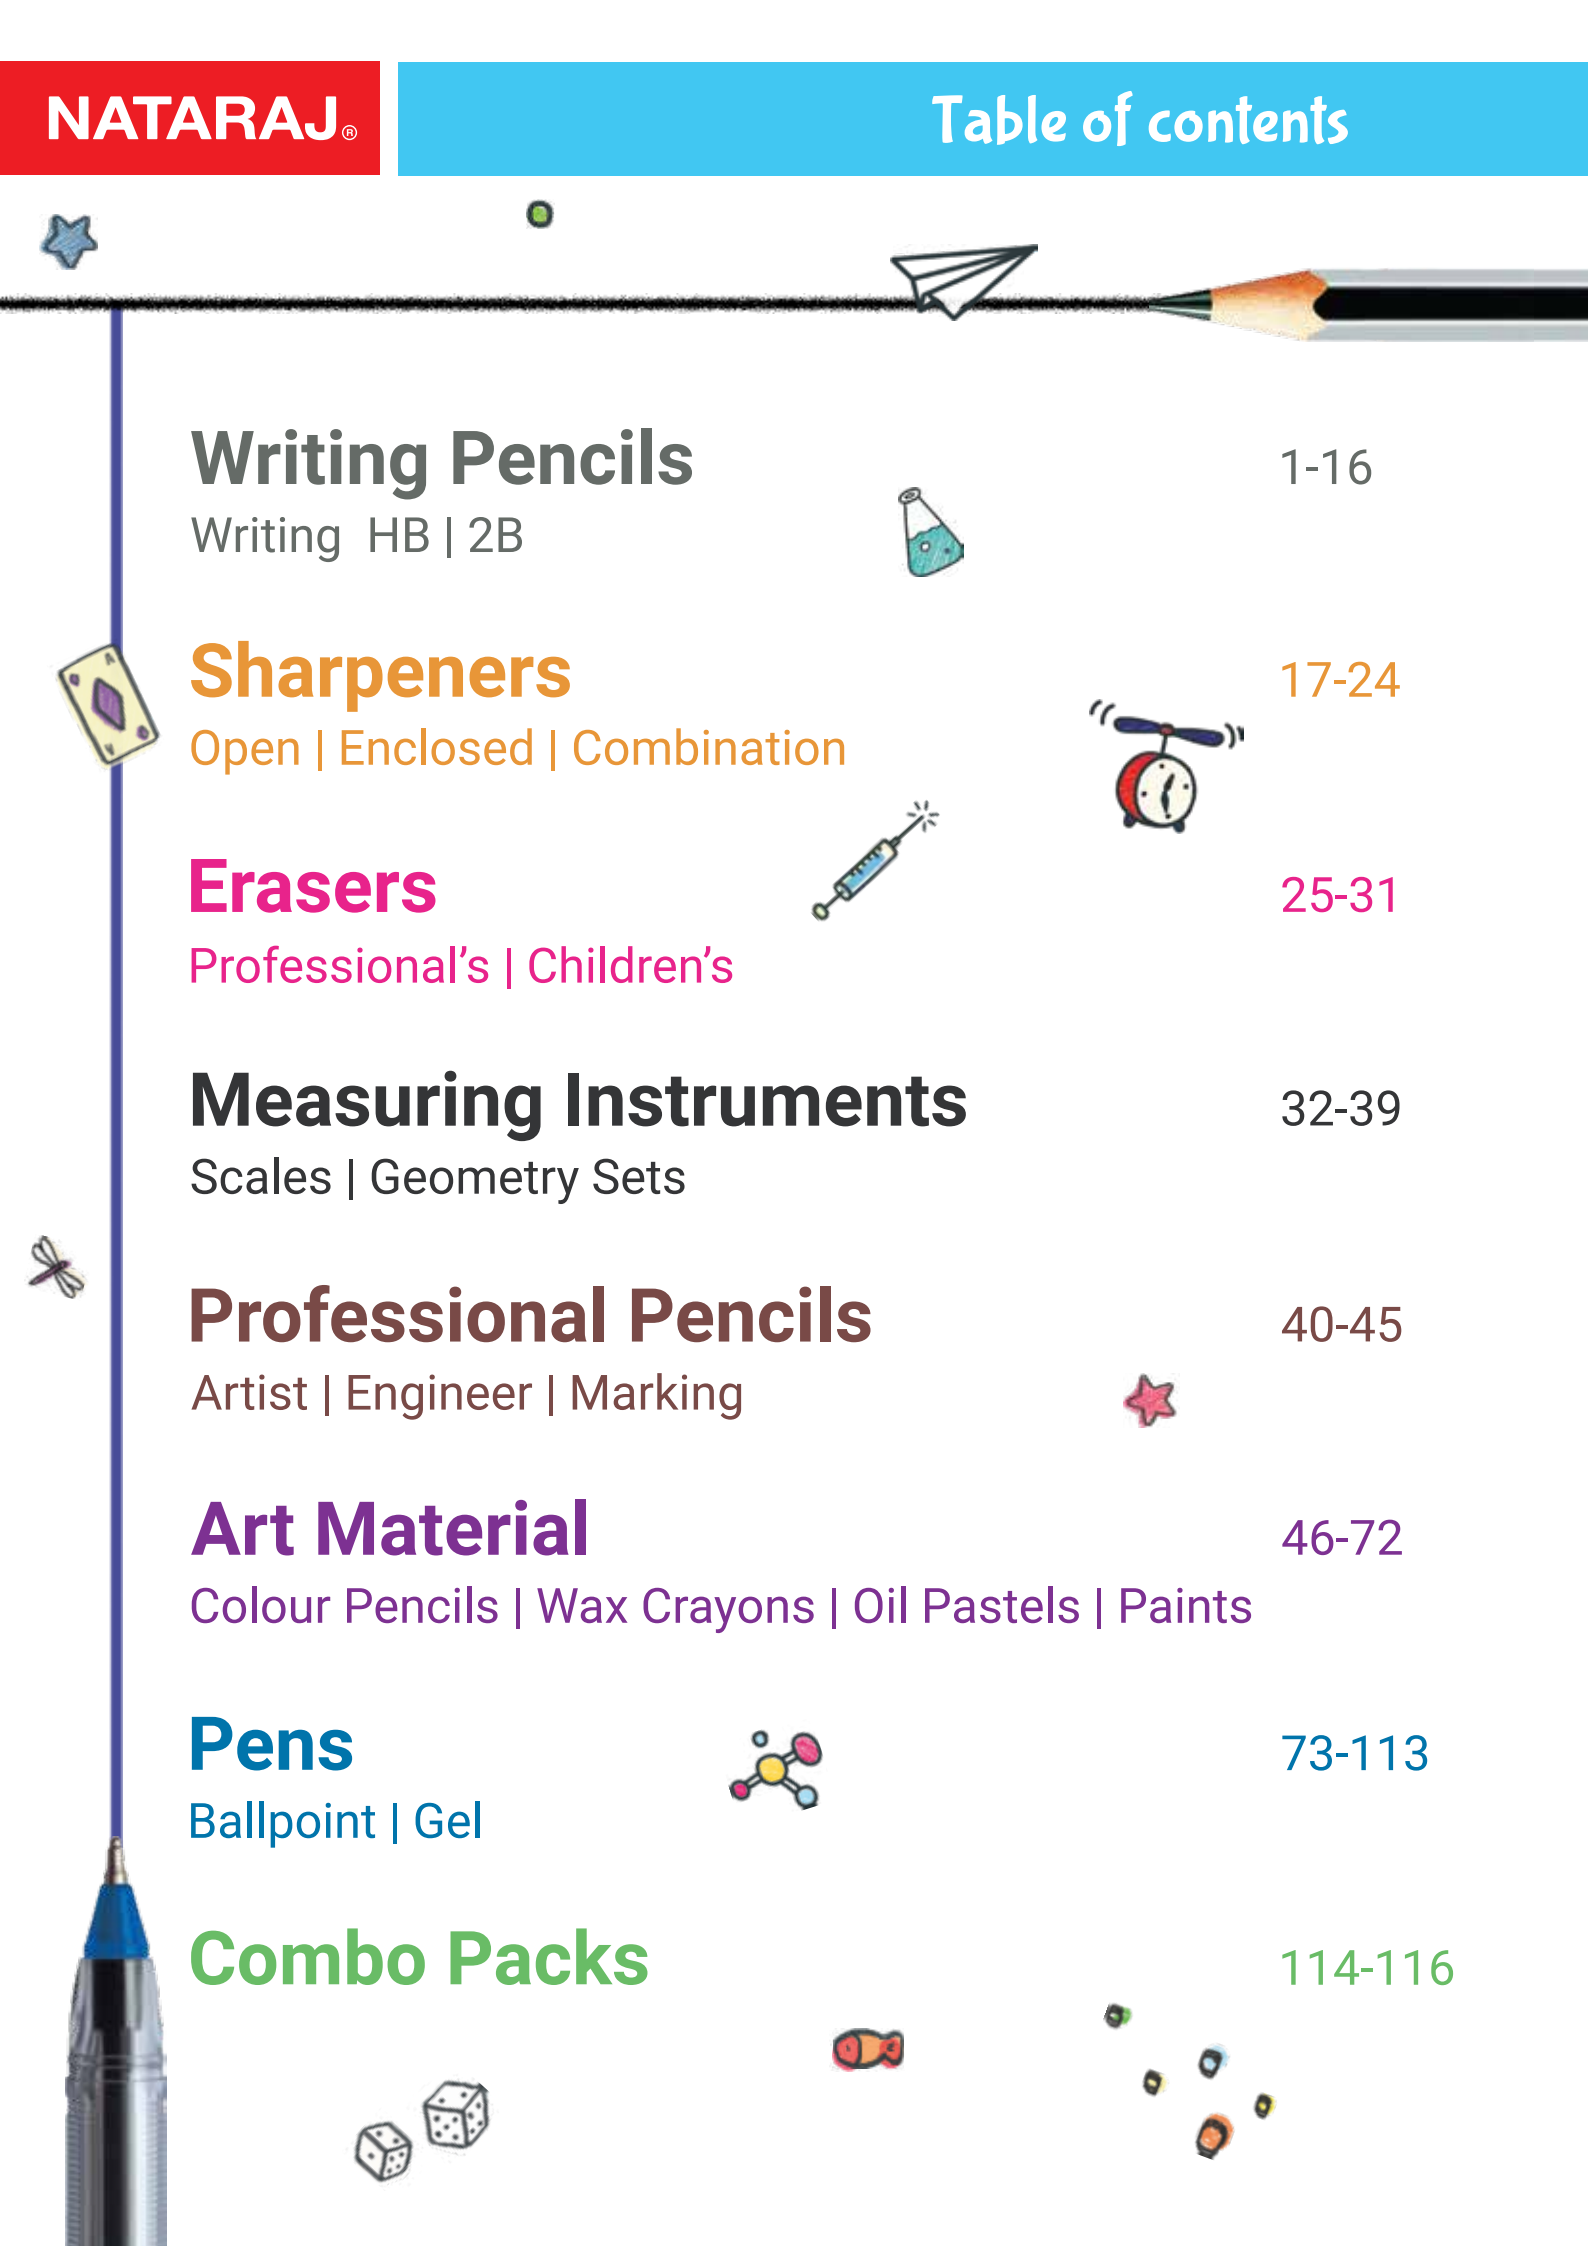

Established in 1958, Hindustan Pencils Pvt. Ltd. is India's largest primary school stationery manufacturer.

With our state-of-the-art manufacturing facilities we produce 9.6 million pencils, 1.7 million sharpeners, 3.0 million erasers, 0.3 million scales, 1.6 million pens everyday. All our products conform to international safety standards such as the European CE EN-71 and American ASTM D4236.

We also care for our environment. We use renewable resources such as Agroforestry wood in production and recycled paper in packaging in order to reduce our carbon footprint.

Our mission statement sums up our ideology:

"Delighting consumers with globally recognised stationery"

NATARAJ pencils are used every day in schools, colleges, offices and homes, in more than 50 countries across the world.

We have a wide and varied range of products catering to children of all ages, as well as professionals.

NATARAJ Silver is our latest product, which ensures sharp and bold writing. The new Triga has a specially designed grip and an ergonomic triangular shape that ensures a comfortable writing experience.

Erasers

A smudge and dust-free eraser is very important for all professional and budding artists. Whether it's a portrait, a technical drawing or homework, NATARAJ offers a range of dust-free erasers for professionals and children alike. The Non-dust in regular and jumbo sizes are individually wrapped and are ideal for heavy-duty everyday usage. The Neon range co-ordinates with the other Neon products from NATARAJ like the pencils and sharpeners - accommodating the tastes of all young users with super bright, fresh colours.

To produce professional drawings, the appropriate equipment is essential, and with the NATARAJ range of drawing pencils you can't make a better choice. Our full range of quality leads from 6H to 6B are reliable and smooth to use. The use of eco-friendly water-based lacquers and PVC-free formulations is of highest priority in order to produce products which conform to international ecological standards. We use Agroforestry Wood in the production of our pencils which promotes renewable plantation development - which is good for our environment.

Wax, oil pastels and paint products from NATARAJ fulfill all the international safety standards, like the European CE EN-71 safety standard. That means all our products are free of toxic residues.

We pride ourselves on our quality in production and materials. The vivid choice of hues in our children's colour range will satisfy the creativity of most young artists. And if that is not enough, due to the great mixing-quality of NATARAJ products, each colour can be combined with each other to create fantastic new colours.

For each of our products, we at NATARAJ spend a lot of time on research and development. Our ballpoint pens are designed to fit the hand perfectly and be comfortable for constant, long-duration writing. The ball-tip and ink cartridges are developed by our technical team for optimal smooth writing, anti-clogging and long-life cycle - a NATARAJ pen can write upto 1.8 km - if you can find a piece of paper long enough! We care for our environment and are engaged in using a combination of high grade recycled plastics and raw materials in our products as well as packaging.

CERTIFIED COMMITMENT TO THE ENVIRONMENT!

CERTIFIED COMMITMENT TO QUALITY!

Hindustan Pencils Pvt. Ltd.

About us

Since 1958

Hindustan Pencils Pvt. Ltd. is India's largest pencil manufacturing company. Founded over half a century ago in 1958, it is the go-to brand in stationery, especially in the primary school market. It has also established its trusted presence globally, exporting to over 50 countries across 5 continents.

The company's product range includes pencils, erasers, sharpeners, scales, art materials and pens, and their popularity extends beyond school to the home and office environment as well.

Outstanding factors that contribute to the company's success are:

Scale of Operation

Every single day 12 factories across 5 locations produce 9.6 million pencils, 1.7 million sharpeners, 3.0 million erasers, 0.3 million scales and 1.6 million pens.

Emphasis on Safety

All manufacturing ingredients are non-toxic and products conform to the following global standards:

European CE EN-71

American ASTM D4236

Stringent Quality Control

Fully backward-integrated, the company manufactures every component that goes into its products right down to the tiny tip of a ballpoint pen, thus gaining complete control over the final quality of its products.

Environmental Consciousness

- Only agroforestry wood is used in manufacturing, ensuring that natural forests remain protected.
- PVC free formulations are used in the manufacture of all our products.
- All packaging materials are eco-friendly: recyclable and biodegradable.

Competitive Price

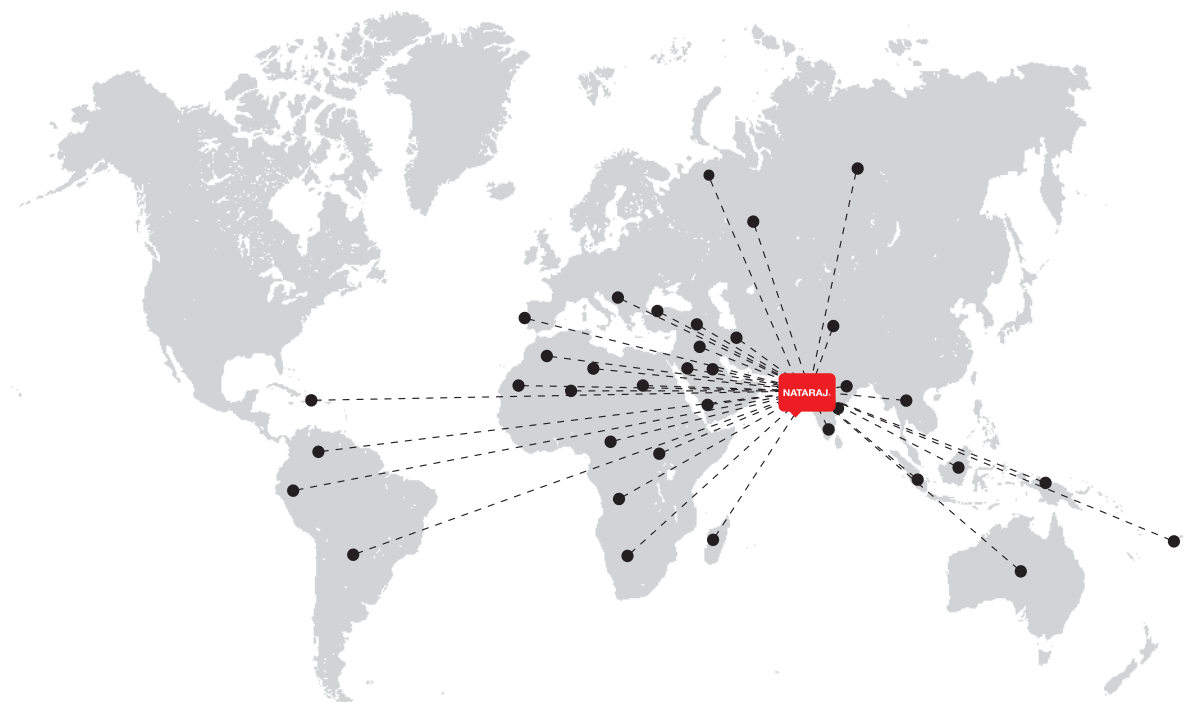

Constant reassessment of the raw-material inputs and efficiency of the manufacturing processes enables the company to offer superior quality at competitive prices: an unbeatable proposition for its ever-increasing base of global clients.
